Growers Association**  
Experience a Real Tree

## Selling Virginia Grown Christmas Trees Benefits...

- Virginia Families
- Virginia Communities
- Virginia Agriculture
- Virginia Environment
- Virginia Revenue  
and...
- Your Organization

## a Real Opportunity

Buying and selling a Real Virginia Christmas tree is one of the best and easiest ways to make money for your business or organization during this Christmas season.

The Virginia Christmas Tree Growers Association consists of over 100 growers from every part of the state. They are your ready and local source for one of Virginia's premier products- Real Christmas Trees.

Certified Virginia Grown and Virginia's Finest, VCTGA Trees are the natural choice for profit for your business, civic, or community group. In addition to increasing your bottom line, the value of selling Real Virginia Christmas Trees extends far beyond your tree lot, with benefits for family, community, environment, and economy.

## Back to Basics

Take advantage of the resurgence of the consumer's desire to return to the traditions of a more natural/less artificial Christmas. Reconnect the wholesome ties of neighbors and community with a local grown/local sold product.

## Virginia Grown

Take pride in one of Virginia's finest products, grown and sold by our hard-working Virginia nursery men and women. Selling our Real Trees strengthens the fabric of Virginia agriculture in a time when other industries are leaving the state and nation.

## Truly 'Green'

Sell the non-polluting, natural, sustainable resource that saves the environment- a priority with consumers in today's marketplace. Tree farms create green space and wildlife habitats, controlling erosion while purifying the air by absorbing CO<sub>2</sub> and releasing O<sub>2</sub>. Real Trees are renewable, recyclable, and bio-degradable.

## Good for Virginia

Keep dollars and jobs inside our state by buying and reselling Real Virginia Trees. Sales ripple through the Virginia economy- from the nursery to city/county economies to state level revenues- all for the good of Virginia and Virginians.

## Your Profit

Trees from the VCTGA have tremendous income potential for your organization. They are the timely and efficient way to add dollars to your business, community, or cause. Abundant and beautiful, Real Trees represent the essence of the Christmas experience everyone is looking for today.
